

Dorilton Capital is a family equity office with a focus on control investments in lower middle and middle market companies.

# Dorilton Capital

## COMPANY OVERVIEW

Dorilton Capital is a private investment firm seeking to acquire, recapitalize and support the growth of small to medium-sized businesses across a range of industry sectors. We seek control situations and prefer to partner with incumbent management to create value over the long term. Since inception, including bolt-on acquisitions, Dorilton Capital has completed over 50 transactions.

## ABOUT US

### I. PATIENT CAPITAL

- We represent the investment office of a European family and have no fixed investment period
- We prefer to create value over the long-term by reinvesting cash flow and avoiding excessive leverage

### II. PARTNERSHIP

- We work actively with existing management teams recognizing that long-term business success is the result of a team effort
- Dorilton provides 1) additional capital for acquisitions and growth projects, and 2) operations support and expertise to take our companies to the next level

### III. CONTINUITY

- We partner with companies that are led by strong management teams and that have a successful history and culture
- We firmly believe in our companies continuing with the elements that have made them successful

## OUR FOCUS

### TARGET COMPANIES

- Established businesses with demonstrated profitability and cash flow generation
- Strong management teams
- New platform companies with EBITDA generally between \$4m and \$25m
- Smaller companies can be considered as bolt-ons to our existing portfolio companies

### ACQUISITION STRUCTURE

- Only consider change of control transactions
- Existing equity holders to retain a significant ongoing equity interest post transaction for new platforms
- Invest in the common equity side-by-side with management shareholders
- Conservative in our use of leverage in transactions

### TARGET INDUSTRIES

- Industrial Services including heavy machinery moving, crating, industrial cleaning, calibration services, equipment rental and non-destructive testing
- Healthcare Services including post-acute services, compliance, lab services, physician practices and behavioral health
- Other facility and business services
